

# CT-Shield™

## CONNECTIVE TISSUE ALLOGRAFT MEMBRANE

BioLab CT-Shield™ is a triple-layer amnion-chorion-amnion human tissue allograft derived from the amniotic membrane that serves as a barrier and provides protective covering for soft tissue repair. CT-Shield™ can be a viable resource for providers in need of a connective tissue product for surgical procedures. It is minimally manipulated, preserving the properties exhibited in its natural state\*, remaining compliant with FDA Regulations.
